Weisburger Insurance Announces New Insurance Program for Pest Control Operators & Landscapers

Harrison, NY, July 24th, 2013: Weisburger Insurance, a division of Program Brokerage Corporation, (PBC Weisburger), specializing in the pest control and landscaping industries, announced that it has appointed a new “A” rated carrier for their national insurance program.

The new offering will provide broader coverage at competitive rates. PBC Weisburger’s clients will continue to receive superior customer service from their existing account management team, which consists of individuals with decades of experience in serving those industries.

“Our 75 plus years of providing broad insurance coverage demands that we continually look for better products to meet the needs of our clients,” said Gary Shapiro, Senior Vice President of Program Brokerage Corporation. “This new program allows us to improve coverage, reach a broader demographic, streamline our processes while providing the most competitive rates. As the only endorsed insurance program by the National Pest Management Association (NPMA) we need to continuously look for ways to better serve our clients and its members.”

Headquartered in New York, Program Brokerage Corporation (PBC) is a leading wholesale brokerage operation known for their wide range of offerings. These include niche programs, general wholesale, professional liability, and environmental capabilities, which have helped it become one of the nation’s largest MGAs.
